CPT® codes searched: 19305

CPT code: 19305

The procedure code you entered was not found on the Aetna Participating Provider Medical Precertification List. If you're a participating provider, no precertification is required when this service is performed as an outpatient procedure for a medical or surgical diagnosis. This procedure code may require precertification for behavioral health diagnoses.

See the Aetna Behavioral Health precertification list (PDF)

Review our clinical policy bulletins to determine if limitations apply.

See our clinical policy bulletins >

A few reminders:

- All inpatient confinements require notification/precertification
- All procedures scheduled at a nonparticipating freestanding ambulatory surgery center require precertification
- If you're a nonparticipating physician, hospital or other health care professional the member's plan may require precertification.
- To receive an appropriate response from this tool, enter a valid and current five-digit CPT or HCPCS code. We don't cover invalid, deleted or expired codes.

Submit your request electronically

If you're a Availity user, you can submit an electronic precertification request.
